Sixteen archers have gathered outside the Temple of Far Away Battle. They will each fire arrows into the temple, which will then either pass through an empty square, a numbered target, or a redirect. Redirects will reflect the arrow 90°. Arrows will continue from one side to the other, not stopping regardless of targets or redirects hit.

The eleven targets each have a different number from 1 to 11. Using the clues to the right and the archer's final scores, can you determine the Temple's guest of honor?

Clues

- At least one person hit no redirects.
- Grace and Alice hit 3 redirects combined.
- Grace's arrow travelled through one less square than Ellen's, and did not share any squares. (This includes squares with redirects and targets.)
- More than half of the women hit exactly one redirect. This did not include Janet.
- Each redirect was hit by two different archers.
- Olive hit 3 numbered targets.
- Only one person hit 5 or more redirects.
- Paula hit twice as many redirects as Flora, who hit more redirects than Ellen, who hit twice as many redirects as Karen, who hit one more redirect than Olive.
